AN ACT to amend the drainage law.

Counties under
township or-
ganization.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly,* That so much of an act entitled "An act to amend an act establishing commissioners to facilitate the drainage of wet lands," approved February 16, 1865, be so amended that in all the counties of this state, adopting township organization, the commissioners of highways shall be and are hereby constituted, *ex-officio*, a board of drainage commissioners in their respective towns.

May run drains
without con-
sent of owners

§ 2. Hereafter, when any person owning wet or overflowed lands in any county under township organization, in this state, desiring to drain the same, shall find it necessary to run across neighboring lands, whose owner or owners will not give consent for the drain to pass through his or their lands, then in that case the person or persons desiring the right of way for the drain shall make application to the said drainage commissioners, in writing, stating through whose premises, if known, it is necessary to pass, in order to effect a proper outlet for the proposed drain; and he shall also furnish to each of the owner, or owners, or their agent or agents, if known, through whose land it is proposed to pass, ten days' notice, in writing, that he intends to make application to the said commissioners to lay out a drain through his or their lands; and in case the owner or owners, through whose land it is proposed to pass, shall be a non-resident of the county or unknown to the applicant, then a written notice shall be posted ten days in three public places nearest the land through which it is to pass.

Time of deter-
mining.

§ 3. The commissioners shall agree upon a time, not exceeding thirty days from the receipt of the application of the person or persons desiring the drain, when and

where they will meet to determine upon such application ; and if anything shall prevent the meeting of the commissioners upon the day specified, then they shall, as soon thereafter as possible, appoint another day for meeting ; and they themselves shall give notice of such meeting to the parties concerned, or their agent or agents. But if any one or more of the commissioners shall appear on the first mentioned day, the one, or more, so appearing, may proceed to elect one or more competent person or persons to make up the number who shall constitute the board, and may proceed to determine the application to lay out a drain shall in all cases be made to the commissioners residing in the town in which said drain is to commence.

§ 4. Upon meeting the commissioners shall proceed impartially to determine whether, in order effectually to drain the land of the party or parties making the application, it is necessary to pass through the land proposed ; and if they shall find it necessary so to do, they shall then determine, also, the direction which the drain shall be run, and also the breadth of the same, granting always that the depth shall be such as to produce a current.

Direction and
breadth of
drain.

§ 5. The commissioners shall, also, determine whether the proposed drain will be of any practical benefit to the land through which it is to pass, and if so, what proportion of the drain the said land owner or owners shall make or cause to be made. If the commissioners shall be of opinion that the drain proposed will be of sufficient benefit to the land through which it is desired to pass, then they shall decide that the person or persons owning the same shall make or cause to be made the entire drain running across his or their lands, giving a reasonable time for completing the same, not exceeding six months, nor less than thirty days. But if they shall be of opinion that the drain proposed will not be of sufficient benefit to the parties owning the land to compensate him or them for constructing the entire drain, then they shall decide what portion of the same he or they shall make or cause to be made, giving a reasonable time for completing the same ; and the party or parties desiring the drain shall be at liberty to complete the remainder according to the specifications of the commissioners, at his or their own expense.

Owner of land
to make drain

§ 6. But if the person or persons through whose land the drain is ordered to pass shall neglect or refuse to make, or cause the same to be made, within the time and according to the specifications of the commissioners, then the person or persons first making the application for the drain shall be at liberty to enter upon the premises of the person or persons so neglecting or refusing and make or cause to be made the drain, following the specifications of the said commissioners ; and he or they may recover the necessary expense

of said work from the person or persons so neglecting or refusing, in an action of debt in any court having competent jurisdiction in the county in which such labor was done or performed.

Assessment for
damages, &c.

§ 7. If the commissioners shall be of the opinion that the drain, if made, will be of damage to the land through which it is proposed to pass, then they shall assess the amount of the damage to be paid by the person or persons desiring the drain, after payment of which, the party or parties so desiring the drain shall be allowed to construct the same at his or their own expense. But in no case shall the commissioners order a drain to be made where the water can not be conducted into a lake, or pond, or river, or other outlets or channels.

To indorse and
file application

§ 8. The commissioners, after having decided either in favor of or against the application for a drain, shall note their decision on the back of the application and file the same in the office of the town clerk; and the clerk shall enter upon his book the date of said filing.

Commissioners
of highways.

§ 9. The pay of the drainage commissioners shall be the same as is now allowed by law for their services as commissioners of highways, and shall be paid by the person or persons benefited by the drain, and be determined by the commissioners.

May appeal.

§ 10. Either party feeling aggrieved by the decision of the commissioners, either in location or failing to locate the drain, may, at any time within fifteen days from the filing of such decision, appeal from the same by giving ten days' notice, in writing, to the opposite party or parties. Said appeal shall be taken before the supervisor, one justice of the peace, and the town clerk; all of the town in which the drain is to originate: *Provided*, that in case either of these persons shall be interested personally in the land or lands through which it is proposed to pass, or shall fail to attend on the day set to meet, then the one or two shall select some other disinterested person or persons to act with them.

Review of com-
missioners.

§ 11. The supervisor, justice of the peace and town clerk (in case none are interested as aforesaid, and if interested, then those selected,) shall within the fifteen days, fix upon a day when they will review the action of the said drainage commissioners, and hear the reasons for and against the laying of the drain. They shall then, after so hearing, determine whether the action of the commissioners was, in their judgment, proper; and if they reverse the decision of the commissioners, in whole or in part, they shall state the same, in writing, specifying what changes they have made, whether they have relocated the drain or reapportioned the labor, or reassessed the damage, if any there be; which statement shall be filed with the town

clerk, for inspection, and record the same; and their decision shall be final in all cases pertaining to the subject.

§ 12. In all cases of appeal, the persons hearing and deciding the same shall be entitled to two dollars per day for the time necessarily employed in the case; and if the action of the drainage commissioners is sustained, then the cost shall be paid by the party taking the appeal; but if said decision shall be reversed, in whole or in part, then the pay of said officers shall be paid in the same manner as specified in section nine of this act. Fee allowed.

§ 13. In all cases where the commissioners shall have ordered a drain through the lands of a non-resident owner or owners, and such owner or owners will not make nor pay for making such drain, as ordered, then it shall be the duty of the commissioners to assess the necessary cost of constructing the drain against the land, and return the same to the county clerk, in such county, who shall enter the amount with other taxes against the said lands; and when the same shall have been collected, as other taxes are collected, he shall pay the amount to the person or persons making or causing the drain to have been made. Such persons shall hold their offices for two years, or until their successors shall be elected and qualified, as hereinafter provided. Each member of said board, before entering upon the duties of his office, shall take the oath or affirmation prescribed by the constitution of this state, and also an oath or affirmation that he will faithfully and impartially, to the best of his judgment and ability, equalize the valuation of property assessed for taxation in this state, according to law. Governor appoints board.
Term of office.

§ 2. It shall be the duty of said board to assemble at the state capitol on the first Tuesday in the month of October, in the year one thousand eight hundred and sixty-seven, and yearly thereafter, and when duly organized, as hereinafter provided, to then and there proceed to examine the abstracts of property assessed for taxation in the several counties of this state, which abstracts shall be furnished by the county clerks of the several counties, through the auditor of public accounts, as hereinafter provided, and shall Duties.

equalize the same, by directing to be added to the amount of property so assessed in each county, or to be deducted therefrom, such rate per cent. as said board may deem equitable, but said board shall not reduce the aggregate amount of property so assessed in the state.

Organization.

§ 3. Said board, when assembled, shall organize by selecting one of the members thereof as chairman, and appointing a secretary, and such other officers to conduct the business of said board as may, in the discretion of said board, be deemed necessary. The secretary of state shall furnish for the use of said board such stationery, printing, postage, fuel, lights and rooms, as may be required for the use of said board. Each member of said board shall be entitled to receive from the state treasurer ten cents per mile for necessary travel in coming to and returning from the state capitol, and eight dollars per day during the sessions of said board, to be paid upon the certificate of the chairman thereof, approved by the governor. The secretary, and other officers of said board, shall receive such compensation as may be determined by the board in each case, their accounts to be certified, and approved in the same manner as above provided in regard to members. Two-thirds of the whole number of members shall constitute a quorum, and said board may adjourn from day to day, until the business before it shall be disposed of.

Property to be listed.

§ 4. All property in this state, whether real or personal, subject to taxation under existing laws, including real estate, becoming taxable for the first time, shall be listed to the owners thereof for the year one thousand eight hundred and sixty-seven, and yearly thereafter, with reference to the amount owned on the first day of April, including all property purchased on that day, and it shall be the duty of the county clerk in each county to furnish the assessor or assessors, with the necessary lists and blanks for assessment, promptly on or before the first Monday in April in each year, and in preparing the lists of lands and town lots for assessment in the year one thousand eight hundred and sixty-seven, and every year thereafter, to provide separate columns in which the assessor shall enter first, the value of all tracts or lots so listed. *Second*—The value of all improvements thereon. *Third*—The aggregate value of each tract or lot, and the improvements: *Provided*, that no assessment of real property shall be considered as illegal by reason of the same, not being listed or assessed in the name of the owner or owners thereof.

Duty of assessors.

§ 5. It shall be the duty of each assessor in this state to actually view and accurately note each tract or lot listed as aforesaid, and place in the separate columns, above directed, the value of each tract or lot without the improvements, the value of the improvements, and the aggregate value of

both: *Provided*, that nothing herein contained shall be construed to prevent any person who shall be aggrieved by such assessment from appealing therefrom in the manner now allowed by law. All tracts of land, or town lots, on which there are no improvements, shall be specially designated by the assessor with the letter "V," and shall be extended into the column for aggregate values only. Assessors shall be allowed three dollars per day for the time necessarily employed in making the assessments, to be paid as now provided by law: *Provided*, the assessment shall be completed and returned to the county clerk on or before the first day of August in each year, otherwise there shall be deducted from such compensation the sum of ten dollars per day from and after the said first day of August until the completion and return of said assessment. Assessors shall have power in all cases to examine, under oath, any person or persons whose property, real or personal, he is about to assess, as to the amount, description, and value of all property owned by such person or persons liable to taxation, and may also examine any other person or persons, under oath, as to the same facts, and shall have power to administer all other oaths required to be administered to carry out the purposes of this section.

§ 6. Upon receipt of the assessment it shall be the duty of each county clerk to make out and transmit to the auditor of public accounts the abstract of assessment now required by law, omitting the amount of taxes charged, and in addition thereto the following items, viz: The number of acres of unimproved land, and the value thereof; the number of acres of improved land, and the value thereof, (treating each legal subdivision as listed as being improved, when a portion of the same is improved) and the value of the improvement thereon; the number and value of all unimproved town lots, and the value thereof; the number and value of all improved town lots, and the value of the improvements thereon. Said abstract to be made out and transmitted on or before the first day of September, in each year.

§ 7. It shall also be his duty to report the action of said board to the several county clerks, under his official seal, immediately upon the adjournment of said board.

§ 8. In equalizing the value of personal property in the several counties, said board shall cause to be added together the average values of each kind of domestic animals and enumerated articles in each county, and the sum so obtain-

ed, as compared with the added general averages of the same items throughout the state, shall be held by said board to indicate the proportion which the whole assessment of personal property in each county bears to the whole assessment of personal property throughout the state; and said personal property shall be equalized by said board in the manner hereinafter provided for equalizing real property. Real property shall be equalized by adding to the aggregate assessed value thereof in every county in which said board may believe the valuation to be too low, such per centum as will raise the same to its proper proportionate value, and by deducting from the aggregate assessed value thereof in every county in which said board may believe the valuation to be too high, such per centum as will reduce the same to its proper value. When the relative valuations of real and personal property shall have been considered separately, said board shall combine the results in such manner as may be deemed equitable, and determine a uniform rate per cent. to be added to or deducted from both classes of property in each county, which rate per cent. shall in all cases be even, and not fractional: *Provided*, that nothing herein contained shall be construed as interfering in any manner with the laws now in force in regard to the equalization of assessments as between the different townships by the board of supervisors in counties adopting the township organization.

Clerks adopting
township or-
ganization.

§ 9. It shall be the duty of the county clerks in counties adopting township organization, in case of failure of any assessor or assessors to make his or their return of assessment within the time specified in the fifth section of this act, to transmit a statement of the assessment in all the townships from which returns have been received, together with a statement of the amount of taxable property assessed in the defaulting townships for the previous year. In all such cases of partial returns, where the number of defaulting townships do not exceed one-third of the whole number of townships in the county, the board of equalization may estimate the valuation in the townships from which returns have not been received, and may equalize the total valuation as in other cases. In cases where the defaulting exceed in number one-third of the whole number of townships in the county, and in all cases of failure on the part of any county to furnish proper returns of assessment to the auditor prior to the meeting of the board of equalization in each year, said board may, by order, authorize the auditor of public accounts to equalize the assessments, when full returns have been received by him.

Proceedings to
be published.

§ 10. A report of the proceedings of said board of equalization shall be published annually, in pamphlet form, and two thousand copies thereof shall be distributed by the secretary of state to the several counties, in the proportion

The secretary of said board may be employed in vacation to superintend the publication of said report, and to examine and correct the printer's proof thereof.

§ 11. It shall be the duty of the several county clerks in preparing the books for the collectors of taxes to provide therein five columns for values; the first to contain the total assessed valuation of personal property assessed to each individual, and the assessed valuation of each tract of land or town lot listed; the second to contain the valuation of such property as equalized; and upon the receipt of the auditor's certificate, setting forth the action of the board in respect to his county, to extend in separate columns, state, county, and all other taxes against the equalized valuation. In all cases of extension, where the equalized valuation shall happen to be fractional the clerk shall reject all such fractions as may fall below fifty cents. Fractions of fifty cents or more shall be extended as one dollar. When such collector's books are completed the county clerk shall report to the auditor the valuations as equalized, and the amount of state, county and other taxes charged thereon. County, clerks shall be allowed until the fifteenth day of December, in each year, to complete and deliver said collector's books, and shall receive, in addition to all compensation now allowed by law, a fee of one cent for extending on said collector's books the equalized valuation of each individual's personal property, and each tract of [land] or town lot listed, to be paid out of the county treasury: *Provided*, that before such payment shall be made in each case, the clerk shall produce from the auditor of public accounts a certificate that he has complied with all the requirements of this act in regard to furnishing statements of assessment, otherwise such payment shall not be made, or any compensation in lieu thereof.

Collectors' books.

§ 12. The qualified electors of each senatorial district of this state shall, at the general election in November, one thousand eight hundred and sixty-eight, and every four years thereafter, elect one of their number to serve as a member of said board of equalization, who shall hold his office for four years and until his successor is elected and qualified; and the board so elected shall have the same powers and privileges and be subject to the same rules and regulations as the board whose appointment is provided for in the first section of this act; and the returns of the poll books and certificates of election shall be governed by the laws regulating the election of state senators; and in case of

§ 14. The session of said board shall be limited to fifteen days.

Certificates of rates.

§ 15. It shall be the duty of the county clerk to make in each collector's book a certificate of the rate of deduction or addition determined by the board of equalization in the county to which said book shall pertain, and also the rate of deduction or addition determined by the board of supervisors in the township to which such book shall pertain. This act to take effect from and after its passage.

Total value, when ascertained.

§ 16. Immediately after the said board shall make their report, and file the same with the auditor of public accounts, the said auditor shall ascertain from said report the total value of all the taxable property in the state, after the same has been equalized by said board, and also the total amount of appropriations and other demands upon the treasury, and said auditor shall cause to be collected such a per cent. upon the whole value of the property aforesaid, as shall be sufficient to pay the appropriations and other demands upon the treasury due to the end of each fiscal year: *Provided*, this act shall apply to state tax only.

JOINT RESOLUTIONS.

WHEREAS, the naval department has expended over one hundred thousand dollars for a navy yard at Mound City, Illinois, and has left it incompleated ; and whereas, the thirteen iron-clad monitors, now anchored at Mound City, together with the other interests of the western branch of our navy, require a western navy yard, which can be completed at Mound City for a small additional expenditure ; therefore,

Resolved by the House of Representatives, the Senate concurring herein, That our senators in congress be instructed and our representatives earnestly requested, without delay, to use all honorable means to secure the passage of a bill through congress making such appropriations as may be found necessary to complete the navy yard at Mound City ; and that the clerk of the house, immediately on the passage of this preamble and resolution, send a certified copy thereof to each of our senators and representatives in congress.

WHEREAS, the Des Moines rapids of the Mississippi seriously obstruct the navigation of said river, and it is proposed to overcome those obstructions by a canal, to be located and constructed by and under the authority of congress ; therefore,

Resolved, That our senators in congress be instructed and our representatives be requested, by all proper and legitimate means, to have such a survey made of both the Iowa and Illinois sides of said river, on the Des Moines rapids, to determine the location of such canal, as to demonstrate clearly on which side of said river a canal can be constructed to the best advantage, taking into consideration the length of the canal, ease and expense of construction, advantages as well as obstructions to the free navigation of the river ; that they also endeavor to obtain the location of said canal on this side of the river, if the same can be done at the same expense and will be of equal advantage to navigation as if constructed on the Iowa side of the river.

Resolved, That the secretary of state immediately forward to each of our senators and representatives in congress a copy of the foregoing resolution.

WHEREAS, the contraction of the currency by the withdrawal of legal tender treasury notes from circulation, under the present financial condition of the country, would be injurious to the government, and oppressive to the taxpayers; and whereas, the interest of the government and people would be promoted by the withdrawal from circulation of the notes issued by the national banks, and by the substitution therefor of legal tender treasury notes, and the payment of interest-bearing legal tender treasury notes at the earliest option of the government in non-interest-bearing legal tender treasury notes; therefore, be it

Resolved by the House of Representatives of the State of Illinois, the Senate concurring herein, That our senators be instructed and our representatives in congress be requested to oppose all measures tending to the contraction of the currency by the withdrawal of the legal tender treasury notes, and to aid in all measures tending to the withdrawal of the national bank notes, and the substitution therefor of legal tender treasury notes.

Resolved by the Senate and House of Representatives of the State of Illinois, (two-thirds of the members elect to each house agreeing thereto,) That the following amendment and the same is hereby proposed to the constitution of the state of Illinois, as an amendment of section seven of the ninth article:

The general assembly shall have no power to release the Illinois Central Railroad Company from its obligation to pay into the state treasury either the tax or the per cent of the gross receipts of the Illinois Central Railroad and its branches, as stipulated in its charter.

Resolved by the Senate, the House of Representatives concurring herein, That our senators be instructed and our members of congress be requested to use all honorable

means to secure the establishment at Cairo, Illinois, of a general depot for army supplies for the south and southwest, and that the secretary of state be instructed to forward a certified copy of this resolution to each of our senators and representatives in congress.

WHEREAS, the rebellion inaugurated by misguided and wicked men, for the overthrow of republican government, and the substitution of despotisms in which essential natural rights were denied, has been suppressed by federal arms; and whereas, in the conflict thus ended, the soldiers of Illinois have always displayed dauntless courage, and unsurpassed devotion to the nation's cause, winning, by their heroism and great qualities, an enviable and enduring name for themselves and their state, as the saviors of the republic; therefore, be it

Resolved by the Senate and House of Representatives of the State of Illinois, That the thanks of all the people of this state are due, and are hereby tendered, to the soldiers and sailors from Illinois in the federal service, for their distinguished services in behalf of constitutional liberty and self-government.

Resolved, That the sympathy of the people of Illinois be and is hereby tendered to the widows and orphans whose protectors have fallen in said service, and to all disabled soldiers and sailors of the state.

WHEREAS, the government of the United States has ever borne to become parties to foreign wars, or attempted to obtain foreign territory by conquest, or mingle in their domestic struggles; and while believing our own form of government to be the best on earth, and that we have never attempted to propagate it by intrigue, diplomacy, or by force, and regarding it as our first duty to claim a like exemption from all foreign interference; and whereas, also, we believe in the principle announced nearly a half century since, by one whose virtues will never be forgotten, that the American continents, by the free and independent conditions which they have assumed and maintained, are not to be considered as subject to future colonization by any European power; therefore,

Resolved by the Senate, the House of Representatives concurring herein, That our senators in congress be and are hereby instructed, and our representatives requested, to pursue such a course, and adopt such measures—in the first place, by a resort to a just and honorable diplomacy—as will prevent all foreign interference with republican governments on this continent; and that, if such diplomacy fails, that they then adopt such other measures as will effectually prevent such interference.

Resolved by the House of Representatives, the Senate concurring herein, That the electors of the state of Illinois be and they are hereby recommended, at the next election of members of the general assembly, to vote for or against calling a convention to form a new constitution for the state of Illinois.

Resolved by the House of Representatives, the Senate concurring herein, That the adjutant general of the state be authorized and required to make a full report of the records and transactions of his office, embracing therein the names, residence, date of enrollment, muster, discharge or death, of every officer, soldier and marine of this state in the military and naval service of the United States, during the late war, with such other military information as may be of public interest.

Said report shall be published in size and style of a volume similar to those published by the state of Indiana, and that two thousand five hundred copies of the same be printed under the supervision of the adjutant general.

Resolved, further, That said report, so published, be distributed in manner provided by law, as follows: To the offices of each county clerk and each circuit clerk, one copy; to each public library in this state, one copy; to each member of the general assembly and its elective officers, one copy; to each state officer of this state, one copy; to the adjutant general's office of each state and territory, one copy; to each state library, one copy; to the United States library, five copies; to the war department at Washington City, fifty copies; and the remaining copies to be deposited with the adjutant general, to be disposed of in sets, to soldiers and citizens of the state, at cost; *Provided*, that said report shall not exceed eight volumes, and shall not cost exceeding two dollars per volume.

WHEREAS, propositions have been submitted to the two houses of the general assembly of the state of Illinois, by the county authorities of Champaign county, and by the citizens acting for and on behalf of the counties of Morgan, Logan and McLean, all of which propositions embrace offers of money, bonds, lands, etc., to induce the state to locate the "Industrial University" at their respective localities; and whereas it is desirable that this state accede to that offer which, all things considered, is the most advantageous to the people of Illinois; therefore,

Resolved by the Senate, the House of Representatives concurring therein, That a committee of fifteen be appointed, of which five shall be members of this body, and ten of the house, whose duty it shall be to proceed forthwith to each of said counties, and examine the various items composing their respective bids, and report on or before the 15th inst., on the cash value thereof, and sufficiency of the title by which said property is held.

Resolved, That until said investigation and report are made, the further action of the general assembly on the subject be suspended.

Resolved, That the secretary of state is hereby directed to report to this house the actual aggregate quantity of stationery delivered to members and officers of this general assembly, and the actual cost price thereof; said report to be transmitted to this house by nine o'clock A. M. to-morrow morning.

Resolved by the Senate, the House of Representatives concurring herein, That the generous offer of Col. E. A. Chapin, superintendent of the Great Western railroad, to furnish a special train, by giving twenty-four hours' notice, to convey the members and officers of the legislature to Jacksonville, be accepted.

Resolved by the Senate, the House of Representatives concurring herein, That the secretary of state be and is hereby authorized to have fifteen hundred copies of an act entitled

"An act relating to the competency of witnesses in civil cases," approved February 19, 1867, printed, with a copy of his certificate thereto attached—one thousand for distribution among the members of the house of representatives, and five hundred for distribution among the members of the senate.

Resolved by the Senate, the House of Representatives concurring herein, That when the respective houses of the legislature adjourn, on Thursday, the 17th instant, they shall adjourn until the usual hour of meeting on Tuesday next.

WHEREAS, the board of managers of Oak Ridge Cemetery propose to donate to the state a suitable vacant lot, to be selected for the final resting place of the remains of the late Governor William H. Bissell, with his wife and children ; therefore,

Resolved by the Senate and House of Representatives, That the offer of the donation of said lot be accepted for the purpose aforesaid, and that Ex-Governor John Wood, the Hon. Jesse K. Dubois and the Hon. O. M. Hatch are hereby appointed a committee to select said lot, and receive a deed therefor to the state of Illinois, in trust, for the purposes aforesaid.

Resolved by the House of Representatives, the Senate concurring herein, That ten thousand copies of the report of the Illinois State Agricultural Society be printed, under the direction of said society, as heretofore ; and that the secretary of state distribute fifteen copies to each member of this general assembly ; fifty copies to each county agricultural society, organized under the law of this state ; two hundred copies to the Illinois State Horticultural Society ; one hundred copies for the use of the state library ; and the remaining copies to said State Agricultural Society, for distribution to other industrial and educational institutions and public libraries of this state and other states and counties.

WHEREAS, the interests of the community require that commerce should be left free to establish and follow such channels as will most conduce to the interests of all, therefore, no such restraints should be imposed upon it as would discriminate unjustly in favor of one locality to the prejudice of another, whether situated in the same or different states; whereas, also, the great lines of railroad communication necessarily extend into several states by continuous lines, and a just regard for the interests of all require that such roads should be allowed to make such regulations for the transportation of passengers and freight as will advance the interests of all, and should not be prevented by legislation, in one state, tending to force such trade to any locality within such state, to the injury of either of the sister states, the roads, or the public; thus, any such legislation would justify corresponding restrictive legislation on the part of a sister state, in defense of the interests of its people, which must necessarily tend to injure both; therefore,

Resolved by the House of Representatives, the Senate concurring herein, That we regret to learn that the legislature of Missouri are endeavoring, by legislation in regard to the Hannibal and St. Joseph Railroad, to prevent travel and trade passing over said road, following its proper and natural channel over the Quincy and Palmyra Railroad, thereby unjustly discriminating in favor of the supposed interests of Missouri, and against those of Illinois.

Resolved, That such legislation should be met in such a spirit as to satisfy the legislature of Missouri that Illinois is willing to throw open the channel of trade and travel, and allow the laws of trade and the interests of our communities to seek such marts as their interests may dictate, without any restraints discriminating in favor of our state to the injury of the other.

Resolved, That a copy of these resolutions be forwarded by the governor of this state to the governor of the state of Missouri.

Resolved by the House of Representatives, the Senate concurring herein, That each member of the twenty-fifth general assembly and the lieutenant governor shall receive for distribution eight copies of the first and second volumes of the report of the state geologist, and upon its publication the same number of copies of third volume; and that each member of the twenty-fourth general assembly be entitled to receive eleven copies of the said third volume, and that the clerks and assistant clerks of the house of representa-

tives, and the secretary and assistant secretaries of the senate receive one copy each of the three volumes, and that the state geologist have the distribution of the remaining copies of the three volumes of said report.

Resolved by the House of Representatives, the Senate concurring herein, That each member of the senate and house, and the speaker of the senate be provided with one bound copy of either of the session issue of the "State Journal" or "State Register," as he may select, to be bound at the close of the session; and that the secretary of state be required to forward said copy to the address of each person entitled to receive the same, within three months from the close of the session, by express, prepaying all charges incurred by expressing the same.

Resolved by the House of Representatives, the Senate concurring herein, That the firm of Ely, Burnham and Bartlett, short-hand writers, be and are hereby appointed as the official reporters for this general assembly, whose duty it shall be to place in each house two competent reporters, to be paid at the rate of fifteen dollars per day, each, for making full reports of the debates in short-hand, and writing out for daily publication so much of the same as may be necessary for a full report of the proceedings, and a synopsis of the debates, the aggregate for both houses not to exceed ten columns nonpareil; and that said reports be published in the "Springfield Daily Journal" and "Register," and that said papers be paid for the same at the rate of five dollars per column, solid nonpareil.

Resolved by the House of Representatives, the Senate concurring herein, That four hundred copies of the joint rules of the house and senate of the last session be ordered printed for use of the present house and senate, and that the state printer be requested to furnish the same as soon as practicable.

Resolved by the House of Representatives, the Senate concurring herein, That on Tuesday, the fifteenth day of January, instant, at 2 o'clock, P. M. each house shall by itself, and in the manner prescribed by the act of congress, approved July 25, 1866, name a person for senator in congress from the state of Illinois, for the term of six years from the fourth day of March, A. D. 1867, and on Wednesday, the 6th day of January, instant, at 12 o'clock meridian, the two houses shall meet in joint session for the purpose of canvassing the votes of each house for United States senator, given the day previous; and in case no person shall have been elected, then to proceed and elect, by joint ballot, a United States senator, for the term of six years from the fourth day of March, A. D. 1867.

BIENNIAL REPORT

OF THE

AUDITOR OF PUBLIC ACCOUNTS

OF THE

STATE OF ILLINOIS,

TO THE

TWENTY-FIFTH GENERAL ASSEMBLY.

SPRINGFIELD:

BAKER & BAILHACHE, PRINTERS.

1867.

BIENNIAL REPORT
OF THE
AUDITOR OF PUBLIC ACCOUNTS
OF THE
STATE OF ILLINOIS.

AUDITOR'S OFFICE, ILLINOIS,
Springfield, December 1, 1866.

To the General Assembly of the State of Illinois :

I have the honor to submit herewith a report of the business of the office of the Auditor of Public Accounts, for the two years beginning December 1, 1864, and ending November 30, 1866, comprising :

- . A statement of receipts into the treasury, and of warrants drawn thereon, on account of the revenue fund.
- . A general statement of warrants drawn on the treasury for all purposes.
- . A detailed statement of warrants drawn on the treasury, and to what account and appropriation charged.
- . A statement of the amount of warrants outstanding, unredeemed December 1, 1866.
- . A statement of the condition of the school, college and seminary funds.
- . A statement of State indebtedness purchased by the Governor with the Central Railroad fund.
- . A statement of State indebtedness paid with the Central Railroad fund, in pursuance of the act of February 22, 1861.
- . A statement of State indebtedness paid with the State debt fund.
- . A statement of State indebtedness purchased by the Governor with State debt fund.
0. A statement of the accounts of the State Treasurer with the several State funds, and the Hancock county interest fund.

- 11 and 12. Statements of real and personal property assessed and taxed for the years 1864 and 1865.
13. A comparative statement of the assessments of property from 1853 to 1865, including the valuation of property in the several counties, as ascertained by the United States census in 1860.
- 14 and 15. Statements of the State taxes charged in the several counties, amounts collected, etc., for the years 1864 and 1865.
- 16 and 17. Statements of the school tax fund for the years 1864 and 1865.
18. A statement of dividends of the school tax and interest funds for the years 1864 and 1865.
19. A statement of the condition of the several banks existing under the provisions of the general banking law.

By reference to statement No. 1, it will be seen that the receipts of revenue fund applicable to the payment of the ordinary expenses of the State government, amount to \$1,351,789 19, of which \$734,098 93 have been derived from taxation, and the remainder from casual and extraordinary sources; the chief of which are the transfer, under an act of the last General Assembly, of the war fund to the revenue fund, and the redemptions and sales of property bought in by the State on foreclosure of the mortgage given by Joel A. Matteson.

No considerable amount of revenue fund can be hereafter realized under existing laws, except from taxation. At the rate now established by law, the receipts from this source for the coming two years may be estimated at a sum not varying materially from \$800,000.

Had it not been for extraordinary receipts, it will be seen that the resources would have been insufficient for payment of the ordinary and contingent expenses of the State, and of the special appropriations made by the last General Assembly, the deficiency would have been at least \$535,000.

The supreme court having decided that the 23d General Assembly did not pass the bill to provide for the ordinary and contingent expenses of the State for the years 1863 and 1864, a considerable amount of such expenditures incurred in those years has been paid during the two years just ended, under an act of the last General Assembly; and a considerable portion of the public printing and binding paid for in the last two years, has been for work that should have been performed and paid for in the two years preceding, but which could not be so done in consequence of the retention of the journals by the officers of the 23d General Assembly until the close of the year 1864.

The act to provide for the ordinary expenses of the State charitable institutions for the years 1865 and 1866, appropriates for the expense of the Hospital for the Insane, the sum of fifty-five thousand dollars *for the two years*, from March 1, 1865, to March 1, 1867. The appropriations for ordinary expenses of each of the other institutions named in the same act, are for certain sums "per annum." In view of the known requirements of the Hospital for the Insane, there can be no doubt that it was intended to appropriate the sum mentioned, *annually*. Provision for the indebtedness incurred in the maintenance of that institution, and the natural increase under several of the standing appro-

riations, will doubtless swell the expenditures in 1867 and 1868, for ordinary purposes, beyond the amount paid in the last two years. The probable amount necessary to defray the same, including provision for the State charitable institutions, incidental expenses of the several departments, salaries of officers, public printing and binding, expenses of the General Assembly, and standing appropriations, may be estimated at a sum not less than \$950,000.

ASSESSMENTS.

The constitution of the State requires the General Assembly to provide for levying a tax by valuation, so that every person and corporation shall pay a tax in proportion to the value of his or her property; such value to be ascertained by some person in such manner as the General Assembly shall direct, and not otherwise." The laws enacted by the General Assembly in pursuance of this clause of the constitution require all property to be listed and valued at its actual worth in money, or usual selling price. It might be expected, when the assessments of property for any year have been completed by assessors, all acting under the sanctity of oaths binding them to honest and faithful observance of the laws regulating their duties, that such a result will have been attained as will not only exhibit with approximate accuracy the wealth and resources of the State, but will also fairly and justly distribute the burdens of taxation, as contemplated by the constitution and laws. Different valuations of similar property in different portions of the State might be expected, as actual variance in value would naturally arise from local and temporary causes; and the honest judgments of different assessors would lead them to varying estimates of value, in the several counties. An examination of the detailed statements of assessment for 1864 and 1865 will show, that with all due allowance for natural and proper causes of variance, no adequate degree of uniformity in valuations is attained by the assessors. It is not easy to believe that, in the year 1865, horses bore an actual average value of \$66 08 in Franklin county, \$15 52 in Kane, \$61 34 in Hardin, and \$20 74 in Lake; that neat cattle should be valued at an average of \$20 84 in Piatt county, and \$4 36 in Jo Daviess and Putnam; that mules and asses were worth \$129 86 in Madison county, \$113 56 in Wayne, \$15 61 in Kane, and \$10 69 in Hamilton; or that dogs were really worth \$3 50 in Douglas county, and but 50 cents in Jefferson. Yet, as will be seen in the statement of the assessment of 1865, (No. 12,) the above are the actual returns of the assessment of such property in the counties named. The returns made to the Auditor do not furnish means of comparison as to the valuations of real property in the different counties; but it is highly probable that inequalities as great as those found in the returns of personal property, obtain in the assessments of real property.

Previous to the year 1861, real property was assessed in all the counties biennially, and is yet so assessed in those counties not under township organization. In 1861 the law was so changed as to require the assessment of real property to be made annually, in those counties adopting the township organization. Statement No. 13 is an exhibit of

the aggregate valuations of real and personal property in the several counties, as assessed in each of the years from 1853 to 1865, in which real property was re-valued in all the counties, together with the aggregate valuation, as ascertained in each county by the United States Census Commissioners in 1860—the latter list being made for statistical information, the former ones for taxation under State laws. A comparison of these valuations shows that from 1853, (the date of the first assessment under the present revenue law,) the aggregate amount of property assessed in the State steadily advanced until the year 1857, then receded until 1861, remained nearly stationary in 1863, increased again in 1865, but did not reach the valuation of 1857 by some twelve millions of dollars; that, while the valuation, as shown by the assessment of 1859, was \$366,702,053, by that of 1861 it was \$330,823,479, yet in the year 1860, the value of property in the State, as ascertained by the Census Commissioners, was no less than \$904,182,620.

Since the year 1857 vast quantities of lands have become taxable, including Government, School, Central Railroad, Canal, State, and Swamp lands, to the extent, probably, of millions of acres; the population of the State has largely increased; cities and towns have sprung into existence, and those formerly existing have, in many instances, doubled and trebled in population; dwellings have been erected for the habitations of probably a million people; the number of domestic animals subject to taxation, and every class of personal property, has increased in like proportion; and all property, real and personal, commands increased prices. Yet, strange as it may seem, if we are to judge the wealth of the State by the returns of assessment, Illinois was poorer, by several millions of dollars, in 1865, than she was eight years before.

The valuations, as obtained by the assessors, are manifestly below the actual worth of the property assessed, and are far from being uniform. The results furnish no reliable information as to the actual wealth of the State, and do not fulfill the requirement of the constitution, "that every person and corporation shall pay a tax in proportion to the value of his or her property."

The rate of taxation might be so adjusted to any valuation, as to realize such amount of revenue as is from time to time required by the wants of the State. But without uniformity of assessed values, taxation is unfairly apportioned. Some escape their due share of the expenses of the government, and others not only bear burdens properly their own, but also those which should justly fall to their more fortunate neighbors. As a remedy for the evident inequalities arising under the present revenue laws, the establishment of a State Board of Equalization, with suitable powers and authority, is earnestly recommended to the consideration of the General Assembly.

UNITED STATES BONDS.

The assessment laws of 1853 provide, in distinct terms, that United States bonds and stocks shall be assessed and taxed the same as other property. The laws of Congress provide that such bonds and stocks shall be exempt from taxation, by or under State authority, and the

Supreme Court of the United States has, in several instances, confirmed the exemption of such stocks and bonds from State and other local taxation. It is not the practice in this State to assess or tax United States bonds, and this provision of our revenue law is practically a dead letter. It is respectfully suggested that some enactment concerning this point should be made, whereby the conflict between the laws of the State and the General Government shall be reconciled or removed.

INTEREST TAX.

The rate of taxation fixed by the revenue law of 1853, for payment of interest on the State debt, is one and one-half mills on the dollar of taxable property, and this rate is to remain in force until otherwise provided by law. The issue of war bonds in 1861 made it necessary to provide for raising a greater amount for interest purposes than could be obtained at this rate of taxation, and the Auditor was by law authorized to levy an additional tax for interest purposes. The additional rate levied for 1865 was one-half of one mill, and for 1866, three-tenths of one mill. It is believed that by the year 1868, owing to the reduction constantly being made of the indebtedness of the State, a rate less than that provided by the law of 1853 will suffice for interest purposes. It is therefore suggested that provision be made whereby the rate of the interest tax may be reduced from time to time, so as to accord with the necessities of the State in this particular.

TAXING NATIONAL BANKS.

The question whether the capital of national banks is or is not liable to assessment and taxation under our State laws, was brought before this office by a number of the assessors and others in the year 1865, it being claimed on behalf of the banks, that their capital is invested in bonds of the United States, (by law of Congress exempt from State taxation,) therefore that the same is in nowise liable to be taxed by State authority. On examination, I found that several cases arising in the state of New York, involving the same question, had been carried to the Supreme Court of the United States, and there decided in favor of the banks. A careful consideration of the subject, led me to the belief, that the true bearings of the question had not been touched upon in any of the cases reported, and that a species of property exists in such banks which is clearly taxable under the laws of the State, and not exempted by any fair construction of the laws of Congress concerning United States bonds, viz: *the shares of the capital stock of the same, owned by individuals*. I therefore instructed the assessors to require the listing of such shares, by the owners thereof, and that taxes should be charged against the same, as against other property.

At the September meeting of the Board of Supervisors of Peoria county, in 1865, the shareholders in the First and Second National Banks of Peoria applied to said board for an abatement of the assessment of their shares, on the ground that said shares were not liable to taxation, under the laws of Congress; and said board decided in favor

of the shareholders. This being reported to the Auditor, as required by law, I certified the facts to the Supreme Court, as is provided in such cases, and at the January term, 1866, applied for an order setting aside and reversing the decision of the Board of Supervisors declaring such shares not taxable. The case was fully argued for and against my application, by able counsel, and decided by the court against the ruling of the Board of Supervisors, whose decision the court set aside and reversed. The shareholders, not content with the decision of the Supreme Court of the State, have taken the case to the Supreme Court of the United States, on a writ of error, where the same is now pending. In the meantime the question of the liability of shares in the stock of national banks to be taxed under adequate State laws, has been passed upon by the Supreme Court of the United States, and a decision rendered affirming such liability. The only question remaining in this case to be settled by the Supreme Court of the United States, seems to be this: whether or not the laws of the State of Illinois are in sufficient conformity with the law of Congress bearing on this subject. As there appears to be no law of the State with reference to the prosecution of suits like this, in the United States Courts, or any provision for payment of expenses therein, and as the interests of the State involved in this suit are very large, it is respectfully urged that the General Assembly make suitable provision in the premises. It is also suggested with reference to the event of the suit resulting adversely to the State, that such modification of our statute concerning the taxation of State banks be made, as will bring the same fully and unquestionably within all the requirements of the law of Congress concerning the taxation of national banks. As the law of Congress only permits the taxation of shares at the place where a bank is located, some provision concerning the collection of taxes assessed on shares owned by non-residents, seems also to be requisite.

INTEREST ON SCHOOL DEBT.

Payment of the interest on the school debt is now made from the fund for defraying the ordinary expenses of the State. As ample means for payment of interest on all of the State debt are now realized from the taxes levied for interest purposes, it is respectfully suggested that the law be so amended as to provide for payment of the interest on the school, college and seminary funds, from the interest fund, the same as interest on other State indebtedness.

The prosperous condition of the finances of the State, so far as relates to the funded debt, is a matter of congratulation to all. Notwithstanding the heavy expenditures made by the State during the existence of the rebellion, in placing her quota of the army in the field, and the heavy and constant drain upon her productive industry, the State debt has been gradually diminished—more rapidly, even, than the anticipations of the most sanguine.

On the first of December, 1860, the entire bonded debt of the State amounted to \$10,277,161 36; which debt was increased \$2,050,000 00 by the war loan of July, 1861, making in the aggregate \$12,327,161 36.

On the first of December, 1866, the entire debt amounted to only \$8,638,252 21, and there is now in the Treasury to be applied on payment on the first of January, 1867: State Debt Fund, \$731,588 49, Illinois Central Railroad Fund, \$33,882 16, to which may be added \$221,574 05, the estimated amount of the seven per cent. of the gross earnings of the Illinois Central Railroad, due for the six months ending October 31, 1866, which, when paid, will reduce the State debt to \$7,650,907 51. The board of trustees of the Canal have declared another dividend of five per cent. on the registered canal bonds, payable January 2, 1867, amounting to \$123,166 66, which will reduce the entire bonded debt to \$7,527,740 85.

Since the commencement of the war the State has not only paid, on the bonded debt, \$2,050,000—a sum equal to the entire war loan, and \$974,568 63, the direct tax levied on the State by the United States—but has paid in addition, on that debt as it existed at the breaking out of the rebellion, \$903,496 94; making the aggregate paid on the State debt \$2,953,496 94; direct tax, \$974,568 63; total, \$3,928,065 57.

To accomplish this there has been no resort to increased taxation. On the contrary \$615,000 belonging to the State Debt Fund was “loaned” to the Revenue Fund under act of February 8, 1861, which has never been returned; and the collection of the two mill tax, or the State Debt Fund, was suspended by the same act for the years 1861 and 1862.

During the two fiscal years ending November 30, 1866, \$2,321,425 13 has been applied by the State in liquidation of the bonded debt.

At the *present rate of valuation* the two mill tax will be sufficient to extinguish the entire bonded debt within ten years. With the seven per cent. of the gross earnings of the Illinois Central Railroad added, the last dollar of the indebtedness can be met on or before the first day of January, 1874.

From the synopsis of the Revenue Fund, it will be seen that the whole amount received on account of revenue from all sources, including the amount on hand December 1, 1864, was \$1,355,052 69—of which sum \$734,371 07 only were derived from direct taxation; and that during that time the warrants paid on account of revenue amounted to \$1,288,629 18—being \$546,258 11 in excess of receipts proper for revenue—to which excess should be added \$55,000, a deficit by clerical error in the appropriation of the “Illinois State Hospital for the Insane,” for the years 1865 and 1866.

Admitting that the present Legislature will be *only equally generous* with the last, in making appropriations for the general interests and charitable necessities of the State, there will be a deficit of (estimated) \$550,000 in that fund November 30, 1868, unless some adequate provision is made for its increase.

With the great wealth and endless resources of our State, the tireless energy and abundant liberality of the people, the time should never come when the Treasury is not able to respond to every legitimate demand. To place the State in such a desirable position, and thus establish and sustain the local credit of the State, is an object worthy of your attention.

The question then arises, how can this desideratum be attained? To that end I would recommend the enactment of a law creating a State Board of Equalization of Assessments,” with powers full and well defined, not only to equalize the assessments of real and personal estate between the several counties of the State, but to so increase (or decrease, if necessary) the aggregate amount of the valuation in the State, that the present rate of taxation will provide a fund sufficient to meet at least all the ordinary current expenses of the Government.

If it should be deemed inadvisable to so increase the aggregate of the valuation, as such increase would correspondingly increase the State Debt Fund, (the rate of the tax for which is fixed in the Consti-

tution,) permanent relief can only be found by an increased rate of taxation for revenue purposes.

But as a fair and just valuation, or an increase of the rate of taxation, can not be available for the increase of revenue until 1868, for an immediate partial relief, I would suggest that provision be made by law for the payment of the interest on the School, College and Seminary Fund, amounting to about \$66,000, out of the Interest Fund, to which it is properly chargeable, instead of the Revenue Fund; and for a transfer or loan of \$200,000 of the accruing surplus Interest Fund to the revenue. The Interest Fund, on the first day of December, 1866, amounted to \$538,548.47. Of this amount, \$235,000, will be required to pay the interest maturing in January, 1867, including premium on coin; and estimated \$5,000 to pay the past due interest that may be called for at the Treasury prior to the first day of July, 1867; leaving an idle surplus in the Treasury of over \$298,000; which can not be used without legislative action. No inconvenience in the future payment of interest can arise from such transfer. Under existing laws any deficiency in the Interest Fund can be supplied from other funds in the Treasury.

If the interest on the School, College and Seminary Fund should be made chargeable to the Interest Fund, and \$200,000 be transferred from that fund to the revenue, there would still be a surplus in the Interest Fund of over \$30,000.

After the payment of the interest due in January, 1865, there remained in the Treasury \$118,180 51, in coin, as per my report to the last Legislature, which amount was by that Legislature, under act of February 16, 1865, set apart or appropriated for the payment of the interest on the sterling bonds of the State, payable in London. The amount then on hand sufficed to pay such interest in July, 1865, and January, 1866, leaving a small balance. According to the provisions of the same act, \$77,000 of gold was purchased for the payment of sterling interest maturing in July, 1866. A detailed statement of the coin received and paid out up to December 1, 1866, accompanies this Report.

JAMES H. BEVERIDGE, *Treasurer.*
